

NON-MOTORIZED TREADMILL

Next generation eco treadmill
without using electricity

FEATURES

01. CURVED DESIGN

Curved design with higher front and rear roller and lower center position makes it so when the user takes bigger steps the speed increases, with smaller steps the speed decreases, and when the user stands on the center, the treadmill slows to a stop.

02. SLAT BELT DESIGN

Unlike a conventional treadmill, it uses thick and strong caterpillar type slats. There is no running board under the belt, therefore there are no concerns for shock to the human body while running.

03. RUNNING ON NATURE

When the user take steps on the curve, it stimulates the body to start putting pressure into the big toe first, imitating the stimulation of running outside. Over 20- 30% more efficiency guaranteed.

04. BLUETOOTH COMMUNICATION (OPTIONAL)

Through Bluetooth communication (BLE4.0) and by DRAX designed smartphone APP, you can display all kinds of exercise information on your smartphone or LCD monitor. You can even manage exercise information with IoT technology.

PRODUCT INFORMATION

MAX. SPEED	LIMITLESS (SELF-PACED)
DIMENSIONS	784 x 1825 x 1608 mm (W x L x H)
WEIGHT:	130 kg
MAX. USER WEIGHT	180 kg
